ABOUT US

TIMELESS DESIGN

All our designs are intentionally timeless. They withstand trends and associate well with different styles, and they can be passed on from one home to the next, carrying over the stories of one lifetime into another. Our collections go back to the essence of what we believe is good design: pieces full of character, made from quality materials that age beautifully. We love that solid wood evolves with the years as it carries the marks of the life that happens to it.

We create collections for every room or space: from the furniture that defines the purpose of an area, to the objects that layer it with meaning. Nothing excites us more than seeing how people love and use our products in the story of their life.

CRAFTSMANSHIP

Outstanding craftsmanship is at the core of our brand, and behind the simplicity of our pieces lies a constant drive for innovation. Incorporating advanced techniques to our process of creation, each new design is revised and reworked to the last detail: every curve, texture and line reflects our design values.

TIPS & TRICKS

- Recommended humidity in the room for interior products: between 40% and 60%.
- Ideal room temperature: 21°C/70°F during the day, not below 14°C/57°F at night.
- To prevent colour differences, do not place furniture or accessories in direct sunlight, move objects placed on the furniture from time to time and open extendable tables on a regular basis.
- Avoid exposure to extreme conditions: do not place furniture or accessories near heating sources or air-conditioned spaces.
- To prevent staining, we recommend that any spills are removed immediately.
- When cleaning the surface, always work in the direction of the wood grain.
- Use place mats and/or coasters to prevent hot pots and pans, or cold glasses and bottles, from damaging items.
- Do not drag the furniture along the floor, always lift the furniture when moving.
- Always ensure water and solutions used to clean the floor do not come into contact with the furniture's base, as it might leave permanent marks.
- Indoor products are not intended for outdoor use. An outdoor product will always indicate so in its name.

CARE INSTRUCTIONS

WOOD

The wooden items are varnished with a water-based topcoat to repel common substances and fluids, such as coffee, tea and wine. However, the protective coat is no foolproof guarantee against stains. In case of a spill, remove it immediately.

Always use coasters to prevent hot surfaces from leaving marks on the table top.

For regular dusting, use a dry cloth. For a more thorough cleaning, use furniture polish with a soft cloth.

GLASS & MIRROR

Wipe the glass or mirror surface with a neutral glass cleaner and soft cloth.

METAL

Dust regularly using a soft dry cloth. For a more thorough cleaning, use mild soap and warm water. Rinse with clean water and wipe dry.

Do not use steel wool, sandpaper, mineral acid, bleach or chlorine cleaners on metal surfaces.

TABLES WITH A METAL BASE

Do not drag tables along the floor, as it might damage the protective coating, cause rusting or leave permanent marks on the floor. Always lift the furniture when moving them from place to place.

Always ensure water and solutions do not come into contact with the furniture's metal base and the wooden floor, as it might leave permanent marks on the floor. Some wood species, such as oak, contain tannin, which causes the wood to react with metal and leave permanent stains.

**We create the foundations
of your home, to inspire the
stories of your life.**
