

Callisto Table Lamp

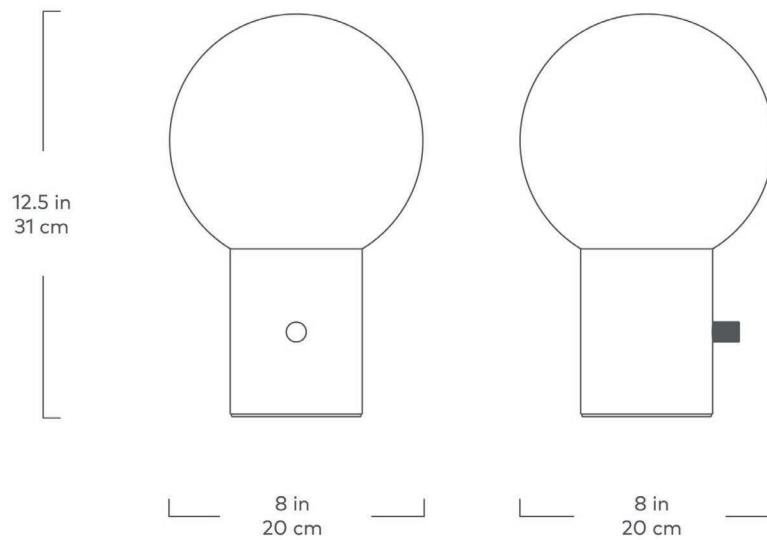

Mono

Compact, yet eye-catching, the Callisto Table Lamp illuminates with a simple, modern approach. Playing with a balance of form and proportion, a large sculptural globe perches on a sleek marble resin base to create a contemporary take on lighting design. Translucent glass masks the glare of an exposed bulb while harnessing the elevated sensibilities of this striking accent piece. Infuse your space with personality with the touch of its dimmable switch.

Design Trade Professionals: We aim to keep our designs in stock and ready to ship quickly for projects on a tight timeline. Designs may be customized with COM and alternate finishes (minimum quantities may apply). Visit guscontract.com for more information about our Trade & Contract programs.
